Dear Paul,

**Re: Callan Park – Greater Sydney Parklands**

On behalf of the Board of Canterbury & District Soccer Football Association congratulations is extended to Balmain & District Football Club in becoming a part of the \$14 million capital investment by the NSW Government under new management of the Greater Sydney Parklands Plan for the Callan Park precinct.

The announcement that part of the funding will be used for a new amenities building at Waterfront Drive supports the growth strategy that the Association has for female football and also that of Football4All participants

Hopefully the Club will be able to secure the long terms lease in the renovated structure referred to as building 497 as discussed with David Birds and yourself in November last year.

I am confident you have a strategy in place to achieve that objective.

Your sincerely

Ian Holmes  
Chief Executive Officer
